----------------------	----------

Welcome

As one of the most important decisions you will make for your property, choosing the right windows, doors or range of glazed extensions is likely to take both time and lots of research.

Having been established since 1990, the Sherborne team welcomes you and are pleased to share their wealth of knowledge on a variety of products.

Throughout the following pages you will see some of our wide range of products we offer along with information about the service we provide. At our showrooms you will be able to see, touch and feel all of the products we offer.

Our aim is to ensure that our clients are able to make an informed decision about the products that suit them & their homes in the best possible way, our dedicated team of staff will be on hand to assist you in that decision making process.

We hope you find the information in our brochure helpful and we look forward to working with you to achieve perfection for your home.

The logo features a stylized green wavy line that starts under the word 'by' and extends under 'Sherborne'.

by **Sherborne**

About Us

Since starting the company in 1990, I made a clear commitment to 'Put the client first by providing complete professionalism and excellence in service, product and installation'. This dedication to customer care underpins everything we do at Sherborne.

The ethos at Sherborne is that of traditional values; courtesy, honesty and integrity, all of which are at the core of what we do along with providing unbiased information to all of our clients, this has seen the company grow organically to become a substantial award-winning organisation offering a diverse range of services.

The Sherborne team is constantly looking at ways we can improve either the products or the services we offer to ensure our clients are completely satisfied & looked after throughout the installation process, I firmly believe we can never stop learning and aspiring to be even better, that constant quest for excellence continues to make Sherborne stand out in our industry.

I am so proud of what the Sherborne team has achieved over the last 25 years, our ability to carry out such a wide range of installations with a large variety of products is testament to the people involved in our business and is the reason we continue to go from strength to strength.

Thank you.

Chris Lang

Managing Director

Awards & Accreditations

Accreditations

Sherborne has always sought to provide the very highest standard of product and service. We are accredited to those organisations within our industry that provide a worthwhile service to the industry and assurance to our clients. We also passionately believe that the best peace of mind that prospective clients can get is to visit our existing clients where we have undertaken similar projects, that is something we can arrange for you.

- We are a Bluesky Certified Installer.
- We are a Assure Certified Installer.
- We are an Ultraframe Registered Installer
- With every project that we complete we provide a Sherborne Guarantee and also offer an Insurance Backed Guarantee through our membership of the IWA.
- We are proud to be a member of the Certified Installer Network (CIN), representing over 100 door, window and conservatory installation companies across the UK. By using a CIN member, homeowners are assured a quality product, quality installation, clear terms, clear communication, professional conduct and an insurance-backed guarantee.

Customer Care

Our Ethos

At Sherborne we pride ourselves in giving our clients the best support available. To meet this ever demanding need, we employ professional staff to give advice, to control individual requirements and to supervise all work to a very high standard.

Client satisfaction is a commitment taken very seriously by all our staff and is the foundation that our business is built upon. We take time to understand your needs and offer professional, effective advice.

We will do our utmost to keep to the schedules and deadlines that have been agreed with you and will communicate with you throughout the process. We will be considerate of your daily routines while work takes place.

We will work safely and cleanly to ensure no problems arise. Above all, it means keeping to the standards of practice and client care that our reputation has been built upon for over 25 years.

Project Management

Andy Long – Our Installation Director and his superb team oversee all Sherborne projects.

They will ensure all work is carried out to the highest possible standard.

All our projects are professionally surveyed and information is made available to our installation department as early as possible after you have agreed your requirements with our sales team.

On completion of work we will make sure that your home is left clean & tidy, all the products that we have installed will be left clean and we will demonstrate how to use & look after them, we will ensure you are happy and that your requirements & expectations have been met.

Paperwork including guarantees, certification and product care guides will be sent to you by our administration staff so that you have all of the documentation you need.

Tricept

High Security, Energy Efficient Windows

Tricept is our modern range of PVC-u windows and they provide many benefits and are manufactured in accordance with all government energy-saving regulations. Our Tricept Range of PVC-u windows cater for a diverse mix of property styles.

The rapid advancement in PVCu technology means that gone are the days of white, rosewood and light oak being the only colour finishes being available.

Colours such as black, grey, cream and green are also increasingly used with great effect. If you wanted something truly bespoke for your home, you are able to choose any RAL Classic colour as we have the facility to have the window frames sprayed.

With regards to comfort and security, Tricept window will provide peace of mind using advanced multi-point locks and weather-resistant seals ensuring there are no irritating and costly draughts. Your new windows will not only be draught-proof, they will also be more energy-efficient and even help keep exterior noise out so you can get that all important peaceful nights sleep.

View the full portfolio at

www.sherbornewindows.co.uk

Wide Range of Colours

Tricept windows are available in a range of 9 standard colours. They can also be painted in a 'state of the art' spray booth to any RAL classic colour.

Thermal Enhancement

The innovative PVC-u reinforcing ensures optimum energy efficient with a total of 7 vertical chambers helping to resist outside temperatures and retain the internal warmth.

Unique 10 Point Lock System

All Tricept opening windows are fitted with a unique 10 point locking system. Making you feel 100% safe & secure in your own home.

Evolution

Where Tradition Meets Technology

Where tradition meets technology, you'll find Evolution at the forefront.

Renowned for both innovation and style, Evolution's range of products are in a league of their own.

At the heart of Evolution are our two main window ranges; Storm 2 and Evolution Flush. Both window ranges share the same design and construction DNA that runs throughout our suite of products.

The Evolution Storm 2 and Flush timber alternative window ranges are the pinnacle of stormproof window design and technology.

Our Storm 2 and Flush casement windows have taken inspiration from timber, giving them robust, yet beautiful styling as well as intricate detailing to joints and finishing touches.

These windows are also highly energy efficient and come with A+13 & A+11 ratings as standard. They can also be upgraded to triple glazing or be upgraded to include acoustic glass if soundproofing is important to you.

The Storm 2 and Evolution Flush range are a great choice for homes of all styles and ages. So if you are looking for good looks, energy efficiency and warmth then Storm 2 or Evolution Flush are the windows for you.

View the full portfolio at

www.sherbornewindows.co.uk

Traditional Style

Evolution windows successfully merge modern technology with the traditional styling & aesthetics of timber.

Handcrafted in the UK

Evolution windows are handmade by their craftsmen in the UK in their state of the art production facility.

Selected Partner

Sherborne are a proud Evolution dealer and have gone through rigorous checks to represent their brand.

Bygone

The Authentic Alternative to Timber Sash Windows

The exclusive Bygone Collection of sash windows are designed to satisfy all the requirements of modern windows and to comply with current building regulations incorporating attributes such as energy efficiency, sound proofing, toughened or laminated safety glass, enhanced security, easy cleaning facility, low maintenance and much more. However, the first requirement is still for the windows to blend seamlessly into their surroundings and to retain the character, charm and feel of the home in which they are installed. In fact, Bygone windows are so authentic that you will often not be able to tell the difference between the new windows and their timber counterpart.

You have the choice of three different Bygone sash window collections to consider. Whilst each has the same attention to detail, build quality and exclusive Bygone locks and handles, we offer you an array of choice to ensure your new windows suit both your home and budget. In addition we offer bespoke windows, exclusively designed for any application.

View the full portfolio at

www.sherbornewindows.co.uk

Timber Alternative

Bygone only make sash windows and since 1988 they have been passionate about making truly authentic sash windows.

Hand Crafted in the UK

All Bygone Sash windows are handmade by their own craftsmen in the UK in their state of the art production facility.

Selected Partner

Sherborne are proud to be a Selected Partner and have gone through rigorous checks to partner with the UK's leading manufacturer of Timber Alternative windows.

Aluminium

From Traditional to Contemporary

The slimmer sight-lines offered by aluminium windows give an increased glass area and better view of the outside world. Compared to a typical PVCu window, aluminium window ranges that we offer can be up to 50% slimmer.

Within the range, we are able to offer the complete scale of aesthetics from traditional to replicate timber windows, right up to the modern and contemporary look and feel that aluminium windows can provide.

White is always a safe bet but if you were after something truly bespoke and individual for your home we are able to offer a wide range of colours in different finishes.

Our sales team will be happy to show you the range of colours available and they can be seen at our showrooms, you can even specify a dual colour option and have a different colour for the outside and inside.

View the full portfolio at

www.sherbornewindows.co.uk

Strength & Slimline

Aluminium, by its very nature, is a strong material compared to PVCu and doesn't require additional reinforcements and with that extra strength comes the ability to increase glass.

Get the Look You Want

Improvements to aesthetics and thermal performance differentiate today's aluminium products from those of the eighties and nineties.

All Round Performance

Aluminium is the preferred material of astute architects looking for longevity, performance, good looks and superb life-time value for money.

Timber

Our Beautiful Range of Timber Windows

Enhance the value and beauty of your home.

As one of the most important decisions you will make for your home, choosing the most appropriate windows and doors is likely to take both time and quite possibly, a fair bit of research. Walk down any street in England and you can tell, almost instinctively whether the doors and windows of a home really suit the structure of the building. When the windows are wrong, it is blindingly obvious, but when they have been chosen well, or the original style preserved, the effect is often simply beautiful.

Whether your home is a country cottage, Victorian semi, modern townhouse or converted barn, we are dedicated to the supply and installation of beautiful windows and doors. We're passionate about wood, with our suite of products leading the market in the breadth of application, uniqueness of design, quality of construction and performance in use.

View the full portfolio at

www.sherbornewindows.co.uk

Lasting Performance

Multi-layer timber sections with opposing grains, balances warping & combats twisting combined with factory applied micro-porous coatings providing maximum protection but minimal maintenance.

Wood Perfection

With almost 50 years of working with timber it was clear that homeowners often preferred timber to other alternatives, the Timber Windows range is quite simply the best there is.

Local Specialist

Sherborne are proud to be a partner with Timber Windows, the range has been carefully & sensitively tailored to complement the English home.

Tricept & Suffolk Doors

High Security, Energy Efficient Doors

Choosing the right entrance door for your home is essential, your front door creates the first impression and the all important kerb appeal. Allow yourself time to decide what is right for your home, whether it be traditional or contemporary you are sure to find a style that suits.

Tricept gives you endless style and colour choices, so now your door can really reflect your personality. Using a combination of coloured woodgrain PVC-u with elegant door furniture, it's now possible to emulate most timber style doors. Your choice of door and glazing design can help define the overall style of your home and add light to an otherwise darkened hallway.

Whether you are considering a front or back door, you should feel confident in the security. There have probably been more security developments on doors than most other products. Your door will include a substantial amount of locking points all around the door, easily surpassing regulations set by British Standards. Even the hinges have been developed to include anti-jemmy technology.

View the full portfolio at

www.sherbornewindows.co.uk

Suffolk Collection

Our collection of Suffolk Tricept doors have been designed with a range of versatile styles that come to life with colour & beautiful glass effects.

Furniture

Great design is all about the detail, our specialist range of Tricept doors incorporate a stylish range of modern & contemporary furniture.

Security

All Tricept doors are fitted with high security locking mechanisms & anti manipulation cylinders to achieve 3 star compliance for the British Standard Kitemark.

34

The English Door Company

The Authentic Alternative to Timber

The English Door Company offers an extensive collection of timber alternative doors that will enhance any home. Our range of designs, colours, styling and glazing options mean you can create a door that is truly unique to you.

The English Door Company uses the latest modern materials and each door is created to emulate the richness and depth of real timber, but without the problems traditionally associated with wood. Our long lasting and durable doors need very little maintenance, have excellent thermal and sound proofing properties and have extremely efficient security features.

Each door is made to your exact size requirements, ensuring a perfect fit every time. There is also a range of stunning hardware choices, including contemporary and traditional wrought iron to add the finishing touch to your bespoke door.

View the full portfolio at

www.sherbornewindows.co.uk

Grand Entrance

There is an extensive range of designs, styles and accessories that allows the door to be designed and manufactured to meet your bespoke requirements.

Hand Crafted in the UK

Each door is handmade by craftsmen in the UK in a state of the art production facility and every door goes through a rigorous production procedure to ensure a first class finish.

Traditional Furniture

A range of highly desirable door furniture is available using solid brass or wrought iron to give the finished door a timeless elegance.

Composite Doors

Character, Without the Maintenance

Composite doors have become very popular over the last few years and the purpose of a composite door (with its GRP outerskin) is to give the look and feel of a timber door, but without the maintenance required of some timber door products.

We offer a wide range of designs, from traditional looking, right through to more contemporary (even art deco) designs and they are all available in a wide range of standard colours. We also provide a wide range of door furniture options to give that finishing touch to your new front door.

View the full portfolio at

www.sherbornewindows.co.uk

Secured by Design

Our police approved 'secured by design' anti bump, anti drill, anti pick & anti snap Kitemarked cylinder lock barrels are fitted to every door.

Colour by Design

Our low maintenance hard wearing colour finishes stay looking good year after year, choose the perfect colour for your home from our vast choice of standard colours.

A-Rated by Design

Using our 70mm double rated door means we use the very latest in design & materials to help keep the heat in & the cold out creating one of the most energy efficient doors available.

Bi-Fold & Sliding

Open Plan Living

Bi-folding & Sliding doors look great, will make your garden more accessible and bring more of the outside, inside. The advantages of bi-folding doors are that they can fold right back to allow the best in outside/inside living. Sliding doors will give large glass surface areas and encourage more light and provide that contemporary spacious feel. They are particularly suited to rooms restricted in size or space with the doors sliding horizontally.

We can offer PVCu, aluminium and timber bi-folding & sliding doors in a wide range of colours and finishes and we have them on display at both of our Showrooms.

View the full portfolio at

www.sherbornewindows.co.uk

Take the Inside – Out

Our range of bi-folding & sliding doors will extend your home into your garden and flood light into your living space.

Full Security

Security remains paramount and all our doors regardless of material used are fitted with high security locking mechanisms & cylinders.

Energy Efficient

With larger expanses of glass the quality of the sealed glazed units is crucial and our super efficient double glazed units keep your home warm & the cold out.

Timber

Hand Crafted & Bespoke

The Timber collection comprises a vast range of door types, from both traditional and contemporary entrance doors to stable doors, bi-folds, sliding and French doors, with styles and configurations derived from homes of character across the country, paired with cutting edge architect designed styles.

Our engineered, multi-layered timber doors do not stick, warp or twist, incorporate energy saving glazing, require little maintenance and offer modern standards of high security.

Entrance or front doors have an extensive range of ironmongery to choose from to enhance them further, along with a fantastic selection of decorative glass and glazing motifs.

View the full portfolio at

www.sherbornewindows.co.uk

Entrance Door

Our striking Timber doors are available hand finished in hundreds of contemporary colours or more conventional timber stains.

Warp Resistant

All our timber doors are multi layered with a factory finished paint or stain to ensure a long life and low maintenance.

Local Specialist

All of our timber doors are installed by our specially trained craftsmen to ensure that perfect finish.

Conservatories

All Year Round Glazed Extensions

All of the conservatory projects we undertake for clients have very much been designed on a bespoke basis and tailored to meet our client's needs. Whether that be a traditional timber conservatory, or a more contemporary aluminium lean-to. Gone are the days where your only choice was a typical white PVCu Edwardian, Gable or Victorian available in a limited array of colours. With our PVCu conservatories for example, you can choose any colour and we can spray this for you, to create something truly individual for your home.

We can project manage your new conservatory from start to finish, as we have all of the trades and expertise to look after your project, right from the flooring to the latest glass products available for your roof, meaning that you can enjoy your conservatory all year round.

We can also assist and advise with regards to any Planning Permission or Building Regulation requirements.

We have a wide range of conservatories on display at our Windlesham Showsite and we would very much welcome the opportunity to discuss your ideas and plans with you.

View the full portfolio at

www.sherbornewindows.co.uk

A Room for All Seasons

Our collection of conservatories can provide a year round room with light flooding in to enjoy your garden regardless of what the English weather is doing.

Enhanced Security

All our conservatories are installed with high security locking mechanisms to ensure your home is safe from would be intruders.

Bespoke Design

Every conservatory is designed individually & is tailored to your particular needs to ensure you get the best from any investment in your home.

Orangeries

Where Tradition meets Modern Living

Orangeries have become very popular in recent years and Sherborne specialise in Orangery builds and understand that there is a high level of skill required to get them right. It is crucial that consideration is made from an aesthetic point of view and it is also vital that the right building skills and project management are available throughout a project of this nature. We have a great team of staff and have many years experience when designing & building bespoke installations of this nature, in fact we undertake as many stunning Orangery projects as we do conservatory projects these days and we greatly enjoy doing both.

The distinction between an Orangery and a conservatory is that with an Orangery you have a flat roof perimeter with a glazed lantern roof. This strikes a great balance between a solid roof extension and a conservatory. Internally, you have the ceiling and pelmet detail which is there to hide the steels & beams that support the weight of the lantern; this creates an area where LED downlights can be fitted to create a room that can be used in many different ways, day & night.

Again, with our Orangery projects there are lots of options in terms of material, design and colours and we display several stunning Orangeries at our Conservatory & Orangery Showsite in Windlesham.

View the full portfolio at

www.sherbornewindows.co.uk

Project Management

Complicated builds & intricate design are our speciality and each project is managed to give continuity & cohesion as the build progresses.

Extend your Home

Full integration with your home includes the skills & knowledge required to use a wide variety of complex structural materials that meet the demands of current regulations.

Planning & Reg's

Our service includes all the expertise required to deal with planning & building regulation proposals, all part of the service.

Contemporary

A Structure that's Truly Different

Over the last few years, many great new products have been launched which provide our clients with plenty of options if you are looking for something outside of a typical conservatory or Orangery design.

These products include the LivinRoom and SkyRoom which are designed to look like and provide the aesthetics of an Orangery but without the complicated & often more costly approach to traditional Orangery installations. Solid roof structures are also becoming very popular and these include products such as LivinRoof, RealRoof & GardenRoom. Structures that incorporate more glass are also proving to be favourable and products like our Veranda design are well complimented when installing fully glazed elevations to the front and sides.

At Sherborne we are continually looking at new and innovative products that are available and work closely with our clients to find bespoke solutions to their requirements.

View the full portfolio at

www.sherbornewindows.co.uk

Modern Looking

Clean lines & lots of glass to give a truly modern look & feel to enhance your home.

Choose Your Colour

Modern Greys or more striking shades are available with our Contemporary range.

Energy Efficient

With more glass comes the need for greater insulation, all standard with our structures.

Modernise my Conservatory

Why modernise?

There are a number of reasons why people want to modernise an old and tired conservatory, it may be to benefit from improvements in glass technology or to change the design to suit current living styles. Whatever your reason Sherborne can help you to bring your old conservatory into the 21st century.

There are so many people out there who have inherited a conservatory that came with their new home, but aren't sure what can be done and at what cost.

Please visit modernisemyconservatory.co.uk to get inspiration on what can be done - through the website you are able to submit images of the back of your home and conservatory, so you can "Challenge Us" to show you what can be done and the potential costs involved, even without making a visit to your home if you would prefer.

View the full portfolio at
www.sherbornewindows.co.uk

Roofline

Fascias, Soffits & Guttering

We are pleased to be able to offer a complete range of low-maintenance roofline and cladding which can transform the look of your home.

Installing new fascias, soffits and guttering will not only safeguard your property, but could also free you from the frequent round of expensive and time consuming maintenance, surface preparation, applying preservative treatments and painting.

Roofline protects your home, whether or not you have plain roof tiles or interlocking pantiles. It allows rainwater to run into your gutter, not into your roof and prevents birds and vermin entering your home.

View the full portfolio at

www.sherbornewindows.co.uk

Low Maintenance

No more painting and more time for leisure & pleasure.

Full Removal

We don't clad, we fully remove old timbers.

Colour Range

A range of colours are now available to suit most homes.

Window & Door Showroom

Farnborough, Hampshire

Gone are the days where we only offered a small range of windows and doors. With our industry greatly evolving over the last ten years with product innovation, there has never been more choice so if you are after that new front door to make a real statement about your home, or if you are looking at replacing all of the windows in your home but have exacting requirements, we believe we will have the right product for you and your home.

Why not visit our Window & Door Showroom in Farnborough, Hampshire, to look at all the options and discuss your plans with one of our friendly and professional, Sales & Design Consultants. Here at Sherborne, we do not manufacture any of our own products, instead, we cherry pick what we believe to be the best products available in our industry and we are very open and honest about the merits of the products we offer and how they compare to other window and door products out there, so you can make an informed decision and be completely satisfied in the investment in your home.

Conservatory & Orangery Showsite

Windlesham, Surrey

We have a stunning Conservatory and Orangery showsite in Surrey, where we have a wide range of structures on display, from the contemporary to the traditional and we are passionate and relentless in constantly updating our showsite to enable us to show clients the latest products in the glazed extension market.

Gone are the days where conservatories can only be used and enjoyed at certain times of the year, many of our clients incorporate kitchens or enjoy them as all year round dining spaces.

At our Windlesham Showsite, one of our very experienced Sales & Design Consultants would welcome the opportunity to tangibly show you how we go about achieving this.

Even a small addition to your home will be a notable investment and we believe it is vitally important that our clients can "touch and feel" the product options out there as there is only ever so much you can glean from a brochure – our Windlesham Showsite allows our clients to do this so you make a fully informed decision and get the investment right for your home and your families lifestyle.

Conservatory & Orangery Showsite

Wyevale Garden Centre

Sunday - 10.30am-4pm

Timber Windows Showroom

Hartley Wintney, Hampshire

Sherborne have recently launched their very own showroom dedicated to the beautiful range of timber windows & doors that we offer, at our bespoke Hartley Wintney timber showroom you will be able to see the wide range of options & choices available from this stunning collection.

With very traditional styles to suit older homes to more contemporary offerings for that modern look, our range of timber products have been carefully & sensitively tailored to complement the English home.

As well as aesthetically enhancing your property the advancements in technology means our timber windows & doors will stand the test of time and keep your home warm & secure with very little maintenance.

If timber windows or doors are something you would like to consider we would recommend a visit to our delightful Hartley Wintney showroom where we can show the range of options and choices available.
